

'Parent and Carer Voices'

Connect Parent/Carer Involvement Group

Connect MHST has recently launched our parent and carer involvement group. We will meet twice a term, one morning meeting and one evening meeting.

This group allows parent and carers to come together, share their views, experiences, and concerns, ultimately helping to improve our service and create a more supportive environment.

If you are a parent or carer and would like to be involved, we would love to hear from you. Please scan the QR code to register your interest and receive more information about the group, including upcoming meeting dates and how to take part. Your voice and feedback are incredibly valuable in helping us shape and improve our support for children and families.
