

Welcome to Appetite!

Appetite is the school meal ordering system provided by Hutchison Catering. It allows you to view the school menu and associated recipes, and place orders for your child's school lunches. The system also helps us to safely cater for children with allergies and intolerances.

You should have received an email with your login details. Please contact the school office if you haven't received this email.

If your child has a special dietary requirement, for example a halal diet, diabetes or an allergy or intolerance, please ensure you have completed a Special Diet Request Form and return this to the school with a medical form (where appropriate).

If your child is diabetic or has an allergy or intolerance, you will also need to add the dietary requirements onto the Appetite system (see instructions below). You can indicate allergies and intolerances to 14 key allergens within the system. If your dietary requirement falls outside of these 14 allergens or is a non-medical requirement, please ask the school office to add the requirements into the notes on your child's account.

Guide to adding dietary requirements

1. Login into the Appetite System
2. At the top of the page, select 'Food' then 'Allergens' from the drop down. If you are on a mobile phone the menu can be found by clicking the 3 lines in the top right corner.
3. You will then have a list of the 14 key allergens to select from. Any allergens, intolerances or requirements that don't fall under the 14 allergens will need to be added to the notes section by the school office.
4. You also have the option to select whether you would like the system to block foods that state 'may contain'. This is highlighted in red under the list of 14 allergens.
5. If your child is diabetic, please tick the 'diabetic' box at the bottom of the page.
6. Please ensure you click 'save' after updating this page.
